

MORE SEMINAL ETHICS IMPLICATIONS – ADDENDUM

Mark Singer

Key

K: Kantian Ethical Standards

M: Machiavellian Ethical Standards

N: Nietzschean Ethical Standards

Possibility Implications

K: A totality of possibilities and impossibilities exists in which possibilities and impossibilities are valued equally to each other. Their relationship includes all other relationships.

M: A totality of possibilities and impossibilities exists in which possibilities are valued greater or less than impossibilities. Their relationship is dialectical.

N: The only totality is freedom in which no possibilities and impossibilities exist. They have no relationships.
